

Welcome

Dear Prospective Dealer:

We appreciate you taking the time to review the literature on Titan Screen™. Titan Screen™ is a motorized, roll down, solar shade screen system designed to be aesthetically pleasing and customizable to fit every customer's need. Titan Screen™ started out as our answer to the issues we experienced with roll down solar screens already on the market. However, it gained momentum in the marketplace through referrals and recommendations to the point that we, happily, found ourselves adding distributors to help cover the customer demand. Simply stated, Titan Screen is a "Great Screen at a Good Price".

A little history....

Titan Screen™ was developed by Sunmaster, a family owned and operated business that has been thriving in the SW Florida area for over 42 years. Sunmaster was originally an awning & shade structure company. Soon after, we added hurricane protection to our product line, then ornamental metal work. Each division was met with enthusiasm both by our existing customers and new ones as well. So far, Titan Screen™ is following that precedence, we have become something of a "one-stop shop" in SW Florida and try very hard to live up to our customers' expectations. This experience with residential and commercial end users really has helped us design and refine the Titan Screen product over the last 5 years into a product that does not have some of the typical issues that a good majority of the retractable screens on the market experience.

Looking towards the future...

We would like to expand the Titan Screen™ product to make it available in areas that we don't currently service. We design and manufacture Titan Screen™ in our own facility and offer a warranty. Please fill out the included a Dealer Application form if you think your company could benefit from offering Titan Screen™.

Again, thank you for your interest and we look forward to many future Titan Screen installations with you and your company.

Sincerely,

John Wilkinson
